NOV 1, Saturday **QUITO**

Quito's artistic pathways lead to some of the most rewarding cultural journeys you can embark on. The pre-Inca people crafted some of the oldest and most exquisite artifacts and jewelry. Following the Spanish arrival, new artistic techniques emerged alongside religious influences, leading to the creation of notable religious sculptures. In the 20th-century, local artists produced dramatic and expressionist paintings, reflecting a blend of historical and cultural evolution. Discover three pivotal eras in the country's history (pre-Columbian, colonial and contemporary) at the National Archaeological Museum and La Capilla del Hombre (Chapel of Man), a striking modern edifice that houses the works of Ecuador's most renowned painter, Oswaldo Guayasamín. This evening, we enjoy our farewell dinner.

NOV 2, Sunday **QUITO / CANADA**

Our 'once-in-a-lifetime' journey draws to a close as we catch our flights to our homes across Canada.

B

CT Rating 4/5 - Very Challenging: Although close to the equator, the high altitudes in central Ecuador and the cooling currents near the Galapagos mean that we can expect pleasant temperatures. During the cruise, we will travel to shore in small boats and experience several wet landings. During the time in the central highlands, we will be between 7,000 and 10,000 feet above sea level (altitude sickness is possible). Because of the many different and sometimes difficult conditions, it is vital that all members be fully mobile and in good physical health.
